

## **LifeGroup Study Guide (Discover LG Vol. 1)**

### **Main Idea**

This evening we're going to discuss more in depth of the passage Acts 2:42-47 of where LifeGroup is derived from & hopefully be able to answer any questions you all may have.

### **Ice Breaker**

1. Who's your best friend & why are you such good friends? Or What does that friendship mean to you?

The 1<sup>st</sup> Century Christians had meaningful relationships/friendship amongst each other because they lived in community. They lived life together!

2. Speaking of community, what comes to mind when you hear this word?

### **Scripture Reading: Acts 2:42-47**

### **Discussion Questions**

1. What word(s) best describe the atmosphere in this passage?
2. As described in this passage, what is the closest you have come to experiencing this kind of close fellowship?

3. Have any of you experienced living in community or being in a Small Group like Pastor Adam was describing?
4. Pastor Adam stated from Brad House that “while we can technically survive without community, we don’t function properly without it”. Why is this?
5. What keeps the Body of Christ (the universal church) from experiencing this kind of fellowship now?
6. Does anyone have any questions?

### **You Questions**

1. What steps do you need to take to live life with others who will encourage your faith journey in Jesus Christ?
2. How would you evaluate the quality of relationships in your life currently? Which ones are influencing you positively and which ones are not?
3. How will this example of how these 1<sup>st</sup> Century Christians lived life together affect how you get involved in church?

### **Prayer**

### **Take Away**

1. If any of the above questions didn’t get answered, have people write them down & for them to think about them throughout the week. Have them give their answers next week.
2. Write down any fears & or expectations of being in a LifeGroup & bring them to God in prayer this week. If comfortable discuss them next week

### **Daily Bible Reading**
