

What about lost civilizations?

1. How do we explain what we cannot understand from the remains of the past?

That does not fit our perceptions?
That which seems too sophisticated for ancient man?
The “disappearance” of civilizations that once existed?

2. Popular explanations

Ancient Aliens - Technology, Seeded Life, Hybrid Life

3. What happens if you overlay a literal biblical perspective on top of this evidence?

First civilization was technologically advanced (Genesis 11:1-7)
God’s judgmental intervention limited advancement (Genesis 11:8-9)
Longer lifespans could produce remarkable advances (Genesis 5, 11:10-26)
Civilizations were predicted to end (Nahum 1:8, 2:6-8, 3:13, 3:18-19)

Always an “alternative explanation” to our origin, destiny, and purpose
Start from a biblical framework to explain what we see
